

**REMARKS**

The Examiner's Action mailed on September 12, 2006, has been received and its contents carefully considered.

In this Amendment, Applicant has editorially amended the specification, and editorially amended various ones of the claims. Further, claim 1 has been amended to include the subject matter of allowable claim 3, and allowable claim 5 has been amended into independent form. Further, claim 10 has been amended to include the same subject matter as was found within allowable claim 3. Claims 21-26 have been added, and claims 3 and 12-20 have been canceled. Claims 1, 3 and 10 are the independent claims, and claims 1, 2, 4-11 and 21-26 are pending in the application. For at least the following reasons, it is submitted that this application is in condition for allowance.

The Examiner has rejected claims 1-11 as being indefinite. In response, the claims have been editorially amended, taking the Examiner's comments into consideration. In particular, the independent claims have been amended to make clear that the protective films are disposed either over or under a respective LCD cell, rather than reciting that the protective film surrounds the LCD cells, as originally claimed. Moreover, the claims have been amended to make clear that the invention is drawn only to a package, rather than to the combination of the package and the LCD cells. Further, claim 4 has been amended to define the structure on the base, which engages the hook and loop fastening tapes of the cover. It is submitted that the claims comply with all official provisions, and it is requested that these rejections be withdrawn.

AMENDMENT of December 8, 2006

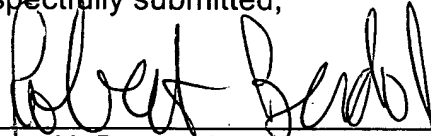

10/757,538

It is noted with great appreciation that the Examiner considers the subject matter of dependent claims 3-5 and 9 as being allowable over the art of record. In response, and as discussed above, claim 1 has been amended to include the subject matter of allowable claim 3, claim 5 has been amended into independent form, and independent claim 10 has been amended to include the subject matter of allowable claim 3. Because all of the independent claims include allowable subject matter, all of the Examiner's prior art rejections have been rendered moot. As such, it is submitted that this application is now in condition for allowance. Such action, and the passing of this case to issue are requested.

Should the Examiner feel that a conference would help to expedite the prosecution of this application, the Examiner is hereby invited to contact the undersigned counsel to arrange for such an interview.

Should any fee be required, the Commissioner is hereby authorized to charge the fee to our Deposit Account No. 18-0002, and advise us accordingly.

Respectfully submitted,

Robert H. Berdo, Jr. – Reg. No. 38,075
